

Build your first web app today

今天做出你的第一個網頁小工具

A campus-life helper that picks one item from a list.

幫你從清單挑一項的小幫手。

Introduction to AI · W3 · AA 2026.09.21

Only five things today

今天只做五件事

- 1** Try v0 先玩 v0
- 2** Choose a mission 選一個題目
- 3** Make v1 做成 v1
- 4** Break and recover 改壞再救回
- 5** Download, document, upload 下載、留證據、上傳

Try it, then change one thing

先玩，再改一個地方

Press "Pick one" three times. Then change the title.

按三次「幫我選一個」，再換一個標題。

The screen changes. That is checkpoint 1.

畫面變了，就是第一個 **checkpoint**。

Three routes, same credit

三條路都同分

live AI

A chat AI the teacher
approved

No bonus for any tool. No penalty for any route.

不加分，也不扣分。

Offline

Agent suggestions built
into the page

Paper

No laptop, same task

Never put these in

不准放的东西

Name

Student ID

Real timetable

Location

Private messages

A synthetic topic is enough.

合成题目就够了。

Choose one synthetic mission

選題：三個合成題目

Study-break picker

Campus activity ideas

Low-waste lunch picker

Cannot decide? Keep the first one.

選不出來，留第一題。

Make: five fields, your words

Make：五個欄位改成你的

Title

Intro

Option 1

Option 2

Option 3

Change one field, press "Update preview", look once.

改一格，按「更新預覽」，看一次。

Do not tick the feature yet.

先不要勾功能。

10-minute break

休息 10 分鐘

14:00 – 14:10

Keep the tab open. Do not log out.

分頁不要關、電腦不要登出。

Classroom PCs wipe on restart. Back at 14:10 to add the feature.

教室機重開會清空。14:10 回來加功能。

v0 → v1: add one thing

v0 → v1 只加一件事

v0 Picks one item. That is all.

v1 + Clear choices + empty-list feedback

Tick the one approved feature, then "Update preview".

勾那一格白名單，再按「更新預覽」。

A test is not "it looks fine"

測試不是「看起來會動」

- 1 Options present → one item from the list
- 2 List cleared → repair prompt, no invented answer

The buttons really operate the preview.

按鈕真的去操作預覽。

Break it, then recover

改壞再救回

Change one word and both PASS results are void.

改一個字，兩筆 PASS 就作廢。

Retest, or press "Restore working version".

重測，或按「還原可用版」。

That is what a version feels like.

這就是版本的感覺。

Download before you go

先按下載再走

15:00 – 15:10

Download v1.html. See the file name, then leave.

下載 v1.html，看到檔名再離開。

Back at 15:10 for the five questions.

15:10 回來寫五問。

Download → find → reopen → upload

下載 → 找檔 → 雙擊重開 → 上傳

- 1 Download v1.html
- 2 Find it in the Downloads list
- 3 Double-click, press the button once
- 4 Upload to e-learning Week 3

Classroom PCs are wiped after class. Upload before you leave.

教室機下課會清空，離開前一定上傳。

Five questions: a frame and a weak example

五問 evidence : 句型與反例

STRONG

Before, v0 only picked. After, v1 clears and warns when empty.

WEAK

"I used AI. It works."

Keep the work; it can join the W13 assignment.

作品留著，W13 可併進作業。

Rescue ladder: five rungs

救援梯五階

- 1 See the expected screen
- 2 Back to the working version
- 3 Change one thing at a time
- 4 Switch to starter.html
- 5 Switch to an equivalent route

Errors first: "four steps" in the course page General section.

出錯先做四步：課程頁「一般」區塊。
